June 11, 2020

To All Massage Students:

We are announcing the plan to open the school on Monday, July 13, 2020. This will allow all current students to complete term 183 which will now end on Monday, August 10, 2020. April graduates, upon completion of graduation requirements, will be able to take the August state board exam. (Graduates were given the paperwork to apply for the state board exam.)

Term 184 will begin immediately on Tuesday, August 11, 2020 - following term 183 and end on Friday, October 30, 2020.

New York Institute of Massage is in compliance with New York State and the Center for Disease Control's requirements. You will be required to wear a mask at all times, until such time New York State deems it no longer necessary.

We are looking forward to seeing everyone together again. Now more than ever, this world needs more massage therapist!

Warm regards,

Diane Dinsmore  
Director
